## Community Conversations

### **Thousands take on issues challenging NEO**

Northeast Ohio's communities can compete only if we work together. In today's global economy, we are all on the same team – when one community loses, we all lose. If we are going to win, we need a new game plan.

Thousands of citizens from around Northeast Ohio are working to draft our new game plan and decide what we need to do to create better jobs and more opportunities for all. Voices & Choices is your chance to have a say about the future of the regional economy. Through Community Conversations citizens can work on prioritizing our regions challenges and brainstorm solutions to those challenges in one of five topic areas: jobs, education, equity & fairness, cooperation & governance and quality of life. You will be provided with an easy to use Community Conversation kit to walk you through your discussion in the topic area you choose.

Citizens, businesses and organizations in Medina County are encouraged to have a conversation during a meeting, in your house or at a brown bag lunch. The Medina county voices need to be heard!

Register today to make sure that your voice is heard. Please contact local Community Organizer, Megann Eberhart at (330) 972-8524 or visit [www.voiceschoices.org](http://www.voiceschoices.org) to order your kit today.

Voices & Choices is a program of the Fund for Our Economic Future, a coalition of 73 local foundations formed to transform the Northeast Ohio economy.
